In real-life conflict resolution situations, one size does not fit all. Just as a mechanic does not fix every car with the same tool, the conflict resolution practitioner cannot hope to resolve every dispute using the same technique. Practitioners need to be comfortable with a wide variety of tools to diagnose different problems, in vastly different circumstances, with different people, and resolve these conflicts effectively. *The Conflict Resolution Toolbox* gives you all the tools you need: eight different models for dealing with the many conflict situations you encounter in your practice. This book bridges the gap between theory and practice and goes beyond just one single model to present a complete toolbox - a range of models that can be used to analyze, diagnose, and resolve conflict in any situation. It shows mediators, negotiators, managers, and anyone needing to resolve conflict how to simply and effectively understand and assess the situations of conflict they face. And it goes a step further, offering specific, practical guidance on how to intervene to resolve the conflict successfully. Each model provides a different and potentially useful angle on the problem, and includes worksheets and a step-by-step process to guide the reader in applying the tools. Offers eight models to help you understand the root causes of any conflict. Explains each model's focus, what kind of situations it can be useful in and, most importantly, what interventions are likely to help. Provides you with clear direction on what specific actions to choose to resolve a particular type of conflict effectively. Features a detailed case study throughout the book, to which each model is applied. Additional examples and case studies unique to each chapter give the reader a further chance to see the models in action. Includes
practical tools and worksheets that you can use in working with these models in your practice. The Conflict Resolution Toolbox equips any practitioner to resolve a wide range of conflicts. Mediators, negotiators, lawyers, managers and supervisors, insurance adjusters, social workers, human resource and labour relations specialists, and others will have all the tools they need for successful conflict resolution.

Conflict Resolution Education

In this edited volume, experts on conflict resolution examine the impact of the crises triggered by the coronavirus and official responses to it. The pandemic has clearly exacerbated existing social and political conflicts, but, as the book argues, its longer-term effects open the door to both further conflict escalation and dramatic new opportunities for building peace. In a series of short essays combining social analysis with informed speculation, the contributors examine the impact of the coronavirus crisis on a wide variety of issues, including nationality, social class, race, gender, ethnicity, and religion. They conclude that the period of the pandemic may well constitute a historic turning point, since the overall impact of the crisis is to destabilize existing social and political systems. Not only does this systemic shakeup produce the possibility of more intense and violent conflicts, but also presents new opportunities for advancing the related causes of social justice and civic peace. This book will be of great interest to students of peace studies, conflict resolution, public policy and International Relations.

Conflict and Communication
The Big Book of Conflict Resolution Games: Quick, Effective Activities to Improve Communication, Trust and Collaboration

This book serves primarily as a field guide and curriculum for organisations training personnel for conflict management missions abroad. Currently, a gap exists between practitioners and academia in the field of conflict management and peacebuilding. Few practitioners have studied conflict management, and few academics have experience as field workers. Conflict literature contains a range of important insights and analyses, but is useful only to a limited degree to practitioners. This book provides practitioners with a much needed guidebook which is easy to understand, academically solid and which identifies with their mission and helps them relate to real-time challenges in the field. The book focuses on a number of case studies, including peacebuilding efforts in East Timor, and offers a range of practical advice for persons about to embark on a mission, from the receipt of an appointment to establishment in the field and encountering the realities and practical challenges that handling conflicts may imply. This book will be of much interest to students of conflict management, peacebuilding and conflict resolution, as well as practitioners in the field.

Conflict and Dispute Resolution

A Guide to Effective Communication for Conflict Resolution enables the reader, first of all, to just notice their present approach to communication. It introduces 9 Principles of Effective Communication, explains them through examples and then encourages the reader to practise the Principles in their own communication. In essence the Principles are simple, but they are personally challenging because they cause us to reassess what may be common practices in our everyday communication. It is important to notice these common practices in ourselves and others first of all, to see how prevalent and unconscious they are. Once we have become more conscious or ‘mindful’ about our communication we can apply the Principles to our day-to-day interactions and see the difference in others’ responses to us, as well as in our own contributions to communication. We then see how practising the Principles can lead to a greater sense of connection and more creative responses to the inevitable conflicts we experience with others.Alan Sharland has been a Mediator since 1994, starting as a volunteer Mediator for Camden Mediation Service in London, UK. Prior to this he was a Teacher of Mathematics in a Secondary School in Camden. His involvement in mediation arose from trying to understand more about conflict as a result of a pupil from the school he worked in being murdered by a group of youths. Many of his pupils had been involved in violence either as victims or perpetrators and sometimes both. Working with people involved in destructive conflicts in his role as a Mediator enabled Alan to recognise common behaviours and approaches that typify ineffective responses to conflict. Mediation seeks to enable more effective responses to be created by those involved in a dispute, complaint or other difficulty. Observing how participants in the mediation process moved on to create more effective ways forward for themselves gave the material for the content in this book and evolved into the Principles that inform how Alan practises as a Mediator and Conflict Coach and how he trains others to be Mediators and Conflict Coaches.
